Introduction to SAP Datasphere

Praveen Kumar M

SAP BW/BI & IBP Consultant
Coimbatore, Tamil Nadu, India

Summary

With over 3 years of hands-on experience in SAP BW and more than 1 year specializing in SAP IBP (Integrated Business Planning), I excel in delivering impactful solutions that optimize business operations and drive strategic outcomes.

In SAP BW, I have successfully designed and implemented robust data warehousing solutions, developed efficient ETL processes, and created insightful data models. My proficiency extends to leveraging SAP BW to extract meaningful business insights and facilitate informed decision-making.

Building on this foundation, my experience with SAP IBP includes implementing and enhancing forecasting, demand planning, and inventory optimization processes. I have a proven ability to harness IBP's capabilities to align supply chain strategies with organizational goals, ensuring agility and responsiveness in dynamic business environments.

Experience

DTE Energy

Sap Business Warehouse Consultant
March 2024 - Present (6 months)
Bengaluru, Karnataka, India

Associate with SCH infotech Pvt Ltd.

Proficient in SAP BW HANA, specializing in: InfoObjects management, data modeling, and maintenance.

Design and implementation of data sources and extraction processes.

Utilization of classic DSOs (DataStore Objects) and advanced ADSOs (Advanced DataStore Objects) for data staging and persistence.

Creation and management of transformation rules including start, end, field, and expert routines.

Expertise in developing Composite Providers for combining data from multiple sources for analytical reporting.

Design and development of BEx (Business Explorer) queries based on Composite Providers for customizable reporting solutions.

Process Chain Management:

Extensive experience in creating and configuring process chains to automate data loads, data transformations, and reporting tasks.

Proficient in defining various scenarios and scheduling process chains to meet specific business requirements.

Monitoring and optimizing process chains to ensure efficient data flow and system performance.

Additional Skills:

Strong analytical and problem-solving abilities in troubleshooting and resolving issues related to SAP BW HANA implementations.

Collaborative team player with effective communication skills and a track record of delivering projects on time and within budget constraints.

Proven ability to adapt to evolving technologies and methodologies in the SAP BW HANA landscape.

Zad Holding Company Q.P.S.C.
